Available Exam Cram and Valid Dumps - Lead2Pass Exam

**Exam :** HP0-216

**Title :** Enterprise Systems Management

**Vendors :** HP

**Version :** DEMO

NO.1 Luke has successfully installed Virtual Machine Management (VMM) pack on an HP SIM server.

He wants to manage three servers running VMware GSX server. Each server runs five virtual machines. How many licenses must Luke apply?

- A.1, on the HP SIM server
- B.3, one on each physical server
- C.15, one on each virtual machine
- D.18, one on each virtual machine and 3 for each physical server

Correct:B

NO.2 Susan is running automatic discovery to add network printers to the HP SIM database. After the

discovery ends, she finds out that no printer has been added. What is the possible cause?

- A.A discovery filter is applied to discard printers.
- B.WBEM is not configured on the network printers.
- C.The insight agents are not active on the network printers.
- D.HP Web JetAdmin is not installed on the Central Management Server.

Correct:A

NO.3 You would like to import and compile additional MIBs into HP SIM. Which tools should you use?

Select TWO.

- A.mximport
- B.mcompile
- C.mxmib
- D.mxcompile
- E.mxadd

Correct:B C

NO.4 Where is DMI information defined?

- A.in a Management Information Base (MIB) file
- B.in a Management Information Format (MIF) file
- C.in a DMI sysOID file
- D.in the globalsettings.props file

Correct:B

NO.5 When you install and configure HP Virtual Machine Management (VMM) pack on a HP SIM server,

which components are included? Select TWO.

- A.VMM ESX layer when installing on VMware ESX server
- B.VMM virtualization layer on the remote system
- C.VMM console on the Central Management Server
- D.VMM VS 2005 layer when installing on Microsoft Virtual Server 2005
- E.VMM service on the Central Management Server

Correct:C E

NO.6 Charlie just finished installing HP SIM and wants to discover new devices on the network.

Besides automatic and manual discovery, which option is available?

- A.Import an LMHOSTS file.
- B.Use a database tool to add the device directly into HP SIM.
- C.Import a HOSTS file.
- D.Use the mxdiscovery command.

Correct:C

NO.7 You would like to move or copy a virtual machine between hosts. Which actions must you take before doing so? Select TWO.

- A.Create a virtual location on the receiving host, the same size as the virtual machine.
- B.Install the VMM license on the receiving host, if not done already.
- C.Create a new virtual machine on the receiving host.
- D.Pause the virtual machine.
- E.Shut down the virtual machine.

Correct:B E

NO.8 Johnny wants to create a custom report. What display options are available to him?

Select

TWO.

- A.Show all systems in a separate table.
- B.Show all systems in a new table.
- C.Show all systems in the same table.
- D.Show all systems in a database table.
- E.Show all systems in a different table.

Correct:A C

NO.9 Dave logs into HP SIM. When he clicks on a link to open the System Management

Homepage of a

managed device, he sees a security warning on his screen telling him that the name of the system

does not match the name in the certificate. What can he do to avoid this message?

A. Configure SNMP on the Central Management Server (CMS) to accept packages from any host.

B. Configure the System Link Configuration in HP SIM to use the system name.

C. Configure the System Link Configuration in HP SIM to use the system IP address.

D. Update the LMHOSTS file on the Central Management Server (CMS).

Correct: B

NO.10 You find a 'critical' status in the Virtual Machine Management (VMM) column in HPSIM, for the

host server running Microsoft Virtual Server 2005. What does this mean?

A. The VMM agent is installed on the server but the server is not a virtual machine host.

B. The VMM agent is installed on the virtual machine host but the host is not licensed.

C. The virtual machine host is licensed but is not currently communicating with VMM.

D. The virtual machine guest is in a state requiring attention.

Correct: C
